

Harty's

Harty's offer a range of delicious hot pepper jelly condiments of the highest quality, made from all natural ingredients which are fresh, exciting, innovative and different...

easy to use and satisfying a range of tastes.

Melanie Harty first developed these condiments in the US and decided to bring it all back home to Ireland. 'My hot pepper jellies are made from all natural top quality ingredients, suitable for vegetarians and coeliac. These savoury jellies can be used equally well as a condiment, dip or glaze, add zing to sandwiches and stir-fries and be that special ingredient in sauces. I want everyone to enjoy the versatility of these spicy, sweet, peppery creations.'

Melanie has now expanded her range from hot pepper jelly, which has a mild heat and an upfront sweetness, to her jalapeno jelly which has that extra kick and a lingering finish. She has also created a mild ginger hot pepper jelly and a chargrilled pepper jelly for those who want the flavour without the heat.
